Product Overview

The Erat Slide 1RU railed patch panel system in its basic form is supplied with the panels unloaded without adaptors ready for you to install the adaptor of your choice. The panel can also be pre-loaded complete with the required adaptor and simple splice management kit, or preloaded with pigtailed to meet your project needs. The tray is locked in place with two simple plastic quarter turn lock to operate. This solution allows for easy access to the front patch cords as well as the splice trays and pigtailed after being pulled out. Standard panels are available empty for complete field configuration, half-loaded with adaptor plates for field termination and cable assembly installation, or stubbed with a factory-installed cable assembly of a user specified length.
